EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This Office Action is responsive to Applicant's Amendment filed on 01/30/06.
2. This application is in condition for allowance except for the presence of claim 3 directed to the Species of Figure 2 non-elected without traverse. Accordingly, claim 3 has been cancelled.
3. Claims 1 and 2 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:
Examiner agrees with Applicant's arguments regarding claims 1 and 2. The prior art of record does not disclose or render obvious a motivation to provide for a continuously variable transmission apparatus as defined by the limitations of claims 1 and 2, including a toroidal continuously variable transmission disposed concentrically with an input shaft, three planetary gear transmissions disposed concentrically with each other on an rotation transmission shaft which is parallel to the input shaft, a first power transmission mechanism for transmitting the rotation of the input shaft to the ring or carrier of the first planetary gear transmission, a second power transmission mechanism for transmitting the rotation between an output portion of the toroidal continuously variable transmission and the rotation transmission shaft, a third power transmission mechanism for transmitting the rotation of the input shaft to the ring or carrier of the third planetary gear transmission, wherein an output shaft is stopped while the input shaft is rotating when the power transmission through the third planetary gear transmission is cut off or when a low-speed clutch is connected and the connection of a high-speed clutch is cut off.
